### Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

### What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

# Section C

*Tell us about your past achievements and future commitments.*

**Part 1** You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

**Note to small facilities:** If you are a small facility, you must report past achievements for only one environmental aspect.

### First achievement

1 What aspect have you selected from the Table on page 29-31?	Hazardous Waste: Alkaline washer process baths	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Tons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	1128	1191
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	.9	1
6 What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	By improving chemistry and better bath management, we have extended bath life and reduced waste generated. These numbers include the addition of five washers as part of our VOC reduction efforts. What is generated is recycled where possible reducing disposal.	

## Section C, continued

### Second achievement

1 What aspect have you selected from the Table on page 29-31?	Hazardous materials use: Stoddard solvent usage for degreasing	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Tons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	989	896
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	9	1
6 What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	The use of stoddard solvent for degreasing operations has been reduced as part of the VOC reduction effort. We have replaced it with more water based processes and will continue to as we roll out a lean operation.	

**Part 2** You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

**Note to small facilities:** If you are a small facility, you must report future commitments for only two environmental aspects.

***Why do we need this information?***

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

***What do you need to do?***

- Describe your approach to public outreach.
- List three references who are familiar with your facility.

# Section D

***Tell us about your public outreach and reporting.***

**1** How do you identify and respond to community concerns?

As part of our ISO 14001 process we have a procedure in place to document and respond to any comment or question received from our community or from our own employees. I am including a copy of the procedure and the form for your information.

We touch base periodically with other community groups contiguous to our facilities to make sure that we are being "good neighbors". A number of our employees live in these neighborhoods so they are another source of information.

For example we had a problem this year with some of our employees using the alley behind the row homes instead of the main street to leave work. We met with the neighborhood association and put together a solution including employee communication, temporary barriers during the plant quitting time and added attention from our security people. These measures were well received by the neighborhood group and are achieving positive results.

Other neighborhood groups include:

Hill Creek Housing Association  
Chew St. Neighborhood Association  
Whitaker Mills Civic association.

**2** How do you inform community members of important matters that affect them?

Management maintains many different contacts at different levels within the Philadelphia community. While many of these are political, they are also people with ties to our local community.

The above associations are the primary means of communication when needed in our local neighborhood area.

The Philadelphia Chamber of Commerce and Ms. Denise Earley, listed as a reference, is another important avenue for us to be informed and to inform outside of our local neighborhood.

**3** How will you make the Performance Track Annual Performance Report available to the public?

☒ Website [www.CARDONE.com](http://www.CARDONE.com)

☐ Newspaper

☐ Open Houses

☒ Other

On request through our external communication procedure under ISO14001. Just as our environmental policy is available to the public we will make this report available upon request. A one-time press release is also an option if accepted into the program.

## Section D, continued

- 4 Are there any ongoing citizen suits against your facility? ☐ Yes ☒ No

If yes, describe briefly in the right-hand column.
